متن زیر را بخوانید و به ۶ سؤال زیر به صورت خواسته شده و کامل پاسخ دهید.

Some people think they have an answer to the troubles of car crowding and dirty air in large cities. This answer is the bicycle. In some great cities hundreds of people ride bicycles to work every day. Some bicycle riders have formed groups of active people who try to ask their city governments to help bicycle riders. They believe if more people rode bicycles, there would be fewer cars in the downtown part of the city and therefore less dirty air from car engines. They suggest that there should be some special lines on some of the main streets for bicycles only. They believe when bicycle riders use the same lines as cars, there are accidents. Also, if there were special lines, more people would use bicycles. But a group of taxi drivers and some shopkeepers don't like the idea.

Before men knew how to make paper, they wrote on many different things like stone, wood and metal. Long ago in Egypt, people learned to use sheets of papyrus, a water plant, to make paper.

This was more than 2000 years ago. The Chinese were the first people to make paper like the one we have today. Paper was not known outside China for about 500 years. Early in the seventh century it was brought to Japan. From about 750 A.D, some other Asian countries began using paper.

At first, paper was made by hand one sheet at a time. But in 1800 Nicholas Louis who worked in a paper factory invented a new machine to make paper. Today even with modern machines, paper is made by the same process that the Chinese used in the past. There are now more than five thousands different kinds of paper used for many different purposes in addition to writing.

There are five billion people in the world and they live in all different parts of it. They live on the snow and ice and also in the jungles. They have climbed the highest mountains and even met the moon.

Man is more than other animals in number and also the most powerful of all of them on the earth. However, in many ways, animals can do things better than we can. ~~Some~~ of them can smell, hear, and see better than us. Birds can fly thousands of miles away and return to the same place every year. But there is one thing that makes people and animals different. People can talk. We are great talkers. We can send messages in so many ways. Most important of all, we can write, so we can send messages through time. We can feel the meaning of past and future, not just present.
